

桂林冶金地质学院学报

1981年 第4期

总 第四期

目 录

论金属矿电阻率和形状对 ρ_s 异常值的作用规律	傅良魁 史元盛 (1)
多层角域顶点电位公式	物探系 葛为中 (13)
内蒙狼山霍格乞矿区矿床与岩体反射光谱特性研究	李世昌 陈铁文 (19)
广西大厂生物礁地质意义初探	叶绪孙 严云秀 (29)
广西金矿成矿地质特征与找矿远景	地质系 杨绍修等 (39)
龙胜蛇绿岩带的地质特征及构造环境	地质系 钟自云等 (51)
广西及其邻区锡矿床分布特征与找矿方向的探讨	地质系 尹全七 (63)

科学实验·方法技术

钼矿床次生晕异常的回归分析与相似性判别分析	季祝林 (71)
-----------------------	----------

积分法计算矿体截面积的方法及精度

.....物探系 李纯志 (75)

• 问 题 讨 论 •

地质勘探 1：2000比例尺地形图测图精度的探讨

.....地质系 陈 权 (80)

中国地球物理学会第二次金属矿勘探地球物理学术交流会

关于我国金属矿勘探地球物理工作的建议..... (38)

JOURNAL OF GUILIN INSTITUTE OF METALLURGICAL GEOLOGY

No. 4, 1981

Sum. 4

Contents

- The role of resistivity and shape of metalliferous ores on ρ_s anomalies
.....Fu Liang-kui, Shi Yuan-sheng (1)
- The formula of apex potential of multi-layered angular regions
.....Ge Wei-zhong (13)
- A study of the physical characters of reflective spectra of the deposit and
intrusive boay in Huogeqi mining area, Langshan, Inner Mongolia
.....Li Shi-chang, Chen Tie-wen (19)
- A preliminary study of the geological significance of bioherm in Dachang
mining area, Guangxi.....Ye Xu-sun, Yan Yun-xiu (29)
- Geological characteristics of gold mineralization in Guangxi and the prosp-
cts of ore-searching.....Yang Shao-xiu et al. (39)
- Geological characteristics and tectonic environments of the ophiolite zone at
Longsheng, Guangxi.....Zhong Zi-yun et al. (51)
- A discussion on the distribution characteristics of tin deposits and ore
guides in Guangxi and its neighbouring regions.....Yin Quan-qi (63)

Scientific Experiments & Techniques

- Regression and similarity discriminatory analyses of secondary anomalies
of molybdenum deposits.....Ji Zhu-lin (71)
- Methods and accuracy in calculating the area of cross section of an ore
body by integration.....Li Chun-zhi (75)

Discussions

- A discussion on the precision of 1:2000 topographical maps in geological
prospecting.....Chen Quan (80)
